Do you ever tried **Crine's June**
omato? Do you know that it is
ly the **Earliest** Pink Tomato in the

Do you know that it is equally as
Spark's Earliana, will yield as much
that variety, has a vine almost iden-
cally the same, and could be truthfully
commended as a "**Pink Earliana?**"

If you do not know the above facts,
order a trial package of seed and put it to a
test, and the result will prove every word we
say for it.

This grand variety is controlled entirely
this year by Messrs. Johnson & Stokes of
Philadelphia and ourselves, and we wish to
warn our customers against others claiming
to have our Tomato. Buy direct and get
the genuine article.

To the trade we wish to state we have
every facility to grow seed of this Tomato
and intend growing same in large quantities
at season. Therefore, if after testing the

you find it a desirable variety, let us quote you price on stock to supply
de. Trusting we will be favored with your valued orders, we remain

Ever sincerely yours,

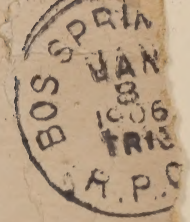

R. V. CRINE,

MORGANVILLE, N. J.
